As-salaa-mu-a-laykum (may peace be upon you)

In the name of Allah the most kind and I ask Allah to shower endless blessings upon our beloved Messenger (pbuh).

In recent years Allah has given me the opportunity to sit down with hundreds of people from many backgrounds to listen to their prayer. One thing that I noticed that was common in over 95% of these people is that they were making mistakes in the pronunciation of their prayer. So I thought something needs to be done about this. Also as you will know there are many people with disabilities, women and men out there who have no access to knowledge and no access to teachers.

These are a few reasons why I compiled this work.

In this book you will see that everything is taken step by step. This is a major breakdown of the pronunciation of the prayer. Each part has a title, Arabic text, transliteration, translation and also notes. This work is very easy to follow, all you have to do is pick any title and go to www.loveforquran.com and click on course 1. In course 1 you will see documents on the left and audio recordings to the right. Click the audio that has the same title as you are studying and enjoy the lesson. Alternatively you can sit with a qualified teacher and study this book.

All madrasah or adult class teachers can teach this book as part of their syllabus and produce muslims and muslimahs who can pronounce their prayer properly.

We ask Allah to accept us and use us for the propagation of truth. Aameen

A humble request: If you find that this work is of benefit to you please spread the word and gain endless reward. Just imagine if you spread the word to one person and they used this work and perfected their prayer, every time he/she prays you get the full reward for that. What a beautiful investment!
